At Australian Retirement Trust, we'll leverage our size and scale to be a force for good to make our members' world better, seeking out investments to guard and grow their savings and retirement income.

Working for you, not shareholders

As one of Australia's largest super funds, Australian Retirement Trust is proud to take care of over \$330 billion in retirement savings for over 2.4 million members. As a fund that works for members, not shareholders, we work in members' best interests and are committed to returning profits to them as lower fees and better services.¹

World-class investments to fund your future

Our scale and size mean we can invest in a broad range of local, national and global investment opportunities to help us grow members' super savings and maximise their retirement income.

We launched our streamlined suite of choice investment options from 1 July 2024. This gives members freedom to awaken their super by choosing from 15 carefully constructed choice investment options that cover a broad range of objectives and investment timeframes to meet their goals and life stages.

For members under the age of 50 who don't make a choice, we will invest them into a MySuper investment strategy that is equivalent to the ART High Growth option.

Feel on top of your future

With useful tools plus access to expert financial advice about your Super Savings account for no extra cost, Australian Retirement Trust makes it easy for you to feel on top of your future by helping you take charge of your super today.²
