

Your Super Account Super Savings Accumulation Guide

Issue date: 1 July 2025

art.com.au

Who this guide is for

If you're thinking about opening an Accumulation account or you already have one, this guide is for you.

It explains:

How to open an account

How your money can grow for your future

What you get with your account

The costs and risks of super

This guide also applies to Super Savings – Business and Super Savings – Corporate. These accounts are for employees of organisations that have negotiated customised arrangements with us and have a separate product disclosure statement. You can only access Super Savings – Business and Super Savings – Corporate through your employer.

Important information

The information in this document forms part of:

- the Super Savings Product Disclosure Statement for Accumulation Account dated 1 July 2025
- the Super Savings – Business Product Disclosure Statement for Accumulation Account dated 1 July 2025
- each of our Super Savings – Corporate Product Disclosure Statements for Accumulation Account dated 1 July 2025

Each product disclosure statement (PDS) listed above references information that you will find in this guide.

You can find other important information about:

- Super Savings Accumulation accounts in our Super Savings Investment Guide and Super Savings Insurance Guide available at art.com.au/pds
- Super Savings – Business Accumulation accounts in our Super Savings Investment Guide, the Super Savings – Business Insurance Guide and the applicable Super Savings – Business Plan Information Factsheet available at art.com.au/business and your employer microsite
- Super Savings – Corporate Accumulation accounts in our Super Savings Investment Guide and the applicable Super Savings – Corporate Insurance Guide and Cost of Product Factsheet available at your employer microsite.

You can also call us and we'll send them to you.

You should read and consider all the information that is part of the relevant PDS, and our target market determination at art.com.au/tmd, before you make any decision about our products.

We issue this document and all Australian Retirement Trust products. When we say 'we', 'us', 'our' or 'Trustee', we mean Australian Retirement Trust Pty Ltd (ABN 88 010 720 840, AFSL 228975), trustee of Australian Retirement Trust (ABN 60 905 115 063) (referred to as 'the Fund' or 'Australian Retirement Trust').

General advice warning

This document contains general information only. It's not based on your personal objectives, financial situation or needs. So, think about those things before you make any decision about the product. And if you're still not sure, talk with a financial adviser.

Privacy

We're careful with your personal information. Our privacy policy explains how we handle it. You can find it at art.com.au/privacy or by contacting us.

Financial Services Guide

Our Financial Services Guide contains information about the financial services we provide. It's designed to help you decide whether to use any of our financial services and is available at art.com.au/fsg or you can contact us for a copy.

Keeping you informed

There may be changes from time to time to information contained in the PDS, including any of the documents that we refer to as forming part of the PDS. Where those changes are not materially adverse, we will publish the updated information on our website at art.com.au/pds-updates or, for Super Savings – Corporate, at the employer microsite referred to in the PDS applicable to your product. You can also call us on **13 11 84** and we will send you a paper or electronic copy of the updated information on request, free of charge.

Australian Retirement Trust is one of Australia's largest super funds

Around 2.4 million Australians trust us to take care of more than \$330 billion of their retirement savings.

Find out more about us at art.com.au

We're focused on:

- strong long-term investment returns
- lower fees
- outstanding service.

For further information about ratings methodology used and awards disclaimers, please see art.com.au/awards

Past performance is not a reliable indicator of future performance. Ratings and awards are subject to change and are only one factor to consider when deciding how to invest your super.

Super solutions for your lifetime

In this section, learn about your Accumulation account and how super works.

We show you:

- How super works for your lifetime from growing your savings now to helping you retire with confidence
- The benefits of investing with us
- Who our Accumulation account is for

Super solutions for your lifetime

Benefits of investing with us

When you have an account with us, you can be confident your money is working for your future. You can enjoy:

Our focus on strong long-term investment returns.

Knowing we're for members, not shareholders.

Start with our Accumulation account to help you grow your super.

Professional guidance to help you feel on top of your super.

Plus, you could be eligible for a bonus when you retire

You could be eligible for a Retirement Bonus we currently pay when you open a Retirement Income account and/or a Lifetime Pension if you've had all or part of your super invested with us for at least a year. Find out about our Retirement Bonus, including eligibility, in our Product Disclosure Statement for Income Account and Lifetime Pension or at art.com.au/retirement-bonus

Who our Accumulation account is for

Our Accumulation account is for you to save money during your working life to spend when you retire. You can also get insurance in your super, if you're eligible.

Please read our target market determination that describes who we design our financial products for at art.com.au/tmd

Corporate or Business employer arrangements

Each Super Savings – Business and Super Savings – Corporate plan has its own microsite where you can find your own

Membership Application form. You cannot apply for a Super Savings – Business or Super Savings – Corporate account using the information set out below. Check your PDS or call us on **13 11 84** for the web address. Return your completed form to us so that we have your personal details, insurance information and who you want to receive your super if you die.

At your microsite you can also find your:

- PDS
- guides
- factsheets
- insurance forms.

Setting up an account is easy. You can:

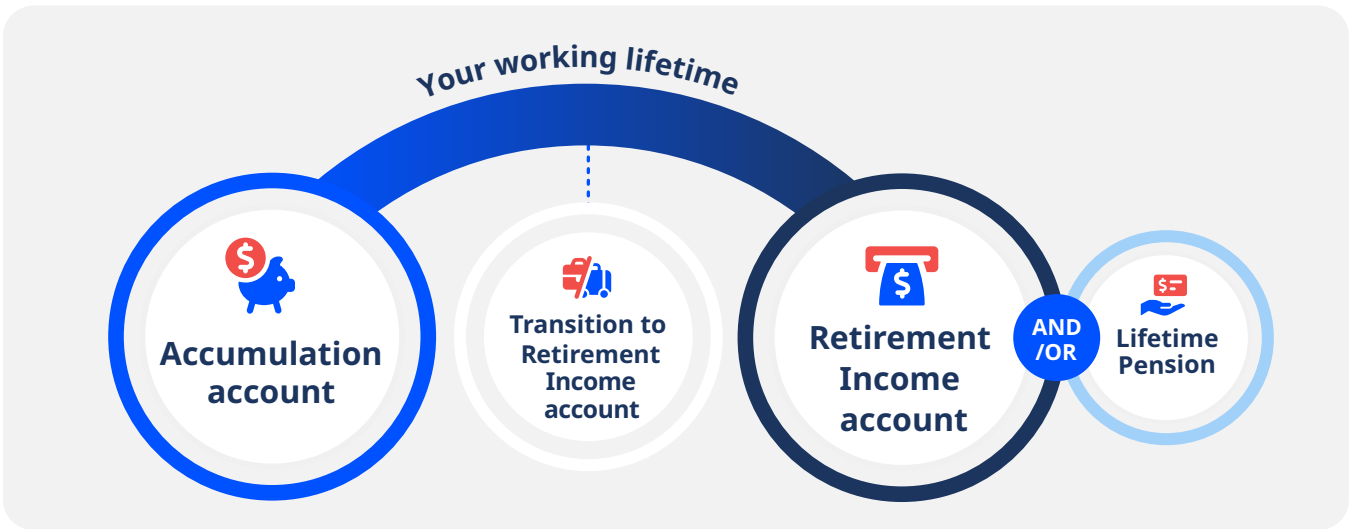

- go to art.com.au/join to join and set up an Accumulation account
- complete and send us the Open an Accumulation Account form in our Product Disclosure Statement for Accumulation Account. It's available at art.com.au/pds or by contacting us.

Cooling-off period

You have a 14-day period to decide if Super Savings is right for you. This time starts when you receive confirmation we've opened your account, or 5 days after we've accepted your application, whichever comes first.

You should read and consider all the information that is part of the relevant PDS, and our target market determinations at art.com.au/tmd, before you make any decision about our products.

Put money into your super

In this section, learn how to grow your super.

We show you:

- The benefits of putting more money into your super
- What kind of contributions you can make such as:
 - how to put extra money into your account
 - how you can top up your spouse's super, or have them top up yours
 - when you may receive government contributions
 - how to combine your super.

Put money into your super

Along with your employer's contributions, you can add money to help grow your super. The more money you save in your super during your working life means the more you may have for your lifestyle when you retire.

Your employer will automatically contribute to your account

By law, in most cases your employer must contribute 12% of your ordinary time earnings (OTE) in 2025-26 into your chosen super account. This contribution is known as the Superannuation Guarantee (SG). You can find out more about which payments count as OTE at the Australian Taxation Office (ATO) website [ato.gov.au](https://www.ato.gov.au)

If you start a new job or want to direct your super to us, you can tell your employer to pay your super into your account with us.

You can also help grow your super

Here's some ways you can help grow your super, if you're eligible. We explain more about each of these ways to help grow your super on the following pages.

Put extra money into your account

Have your spouse put money into your account

Receive government contributions

Combine your super

One of the benefits of putting more money into your super

Putting a little more into your super can make a big difference by the time you retire. The power of compounding can help your savings grow faster. Put simply, compounding means that as money grows via investment earnings, these earnings also grow by earning returns, and so on. While it's important to note that earnings in super can be positive or negative, super is generally a long term investment. The longer you are invested, the more you can benefit from compounding, and the more likely it is that you'll overcome any short-term falls in investment markets.

See how compounding can work

For example, if you invest \$20 per week (after tax) over 30 years, assuming a return of 2% p.a. (net of inflation, fees and costs and taxes), you could have over \$40,000.¹ Over \$10,000 of that total comes from investment earnings.

You should know: 1 The figures are illustrative only and we worked them out using the ASIC MoneySmart Superannuation calculator at moneysmart.gov.au, accessed 14 February 2025. The calculation assumes savings of \$20 per week for a time period of 30 years. The calculation assumes the earnings compound annually. The earnings rate assumed is 6% p.a. net of fees and costs and taxes. The calculation assumes that earnings are reinvested. Results are shown in today's dollars, which means they are adjusted for inflation of 4% p.a. The information should not be used as a guide to future performance of any investment. Investment returns can be positive or negative and this does not guarantee a future outcome. Check with your chosen product provider in regard to actual earnings calculations. The calculation provides an estimate of the future value of savings, which could vary significantly over time if any change is made to these assumptions. These figures are provided only to demonstrate the principle of compounding. They are not intended to represent projected earnings in a Super Savings Accumulation account.

How to put extra money into your account

You can pay into your super in 2 different ways. Each way has tax implications.

1. Before-tax contributions for 2025-26

| | |
|--|---|
| What this means | Contributions from your employer, including when you salary sacrifice from the money your employer pays you, are known as before-tax or concessional contributions. |
| How to do it | You can make before-tax contributions to your super by: <ul style="list-style-type: none">• setting up a salary sacrifice arrangement• transferring money in yourself – and claiming a tax deduction on the money. |
| Tax we deduct | 15%. But if your income plus concessional contributions for Division 293 purposes are more than \$250,000 the Australian Taxation Office (ATO) may apply additional tax. |
| Contribution cap in the financial year | \$30,000 |
| Combining contribution caps over multiple financial years | If your total super balance was less than \$500,000 as at 30 June 2025, you may be able to carry forward any unused part of the cap from prior years to use within a rolling 5-year period. |
| If you go over the contribution cap | The amount above your tax limit becomes part of your assessable income and you'll pay tax on it at your marginal rate. You can elect to withdraw up to 85% of your excess concessional contributions to help pay your income tax liability. |

2. After-tax contributions for 2025-26

| | |
|--|--|
| What this means | If you've already paid tax on your money, which means it might be money you have in your bank account, then there's no more tax to pay when we receive it in your super account. Generally you must be under 75 years old to make an after-tax contribution into your super. |
| How to do it | You can make after-tax contributions to your super as a one-off, or setup regular transfers by: <ul style="list-style-type: none">• BPAY® – you can find your reference numbers in Member Online• asking your employer – they may be able to arrange regular voluntary contributions• making a payment via EFTPOS, cheque or money order by completing and sending us a Direct debit request form from art.com.au/forms-and-tasks• logging in to Member Online to make a direct debit. <small>® Registered to BPAY Pty Ltd ABN 69 079 137 518</small> |
| Tax we deduct | 0%. You've already paid tax on this money. |
| Contribution cap in the financial year | \$120,000 (nil if your total super balance was equal to or more than the general transfer balance cap at 30 June of the previous financial year). The general transfer balance cap is \$2 million in the 2025-26 financial year. |
| Combining contribution caps over multiple financial years | You may be able to contribute up to \$360,000 in a given financial year by bringing forward the next 2 years' worth of caps, subject to specific rules when your account balance approaches the general transfer balance cap. If you use the future caps, they won't be available in those future years. |
| If you go over the contribution cap | The ATO will notify you of your options. |

Salary sacrifice

Salary sacrifice is one of the ways to regularly contribute more money to your super. You can put some of your salary into your super account before you pay tax on it. It's money that you put into your super on top of your employer's compulsory SG contribution. Salary sacrificing can help you save on tax and grow your savings. Here's how:

- Depending on your income and other circumstances, you may pay less tax on salary sacrifice contributions compared to your normal tax rate on your salary.
- If you salary sacrifice to take money out of your before-tax salary, it lowers your taxable income. So, you may pay less tax at tax time.
- Putting extra money into your super helps grow your retirement savings as we show you in the Power of Compounding on page 10. You should be aware investment returns can be positive or negative.
- Check with your employer about salary sacrifice.

Find out more about salary sacrifice at art.com.au/salary-sacrifice

Important: Contribution caps apply to your super. It is important to be aware that there are tax consequences if you exceed the caps. The before-tax contribution cap for 2025-26 is \$30,000. This applies to all your before-tax contributions including employer and salary sacrifice contributions.

Downsizer contributions

If you're 55 or over and selling your home, you may be able to put money from the sale of your property into your super. Downsizers can potentially contribute:

- up to \$300,000 as an individual
- up to \$600,000 as a couple, if you're both eligible.

Find out more about downsizer contributions at art.com.au/downsizer

Turn after-tax contributions into before-tax contributions

If you've made an after-tax contribution, you can send us a notice that you intend to claim it as a tax deduction. You can do this in [Member Online](#). You must send us the notice and receive acknowledgement from us before you can claim a tax deduction. To find out more about time limits and other eligibility requirements, please see the ATO website at ato.gov.au, or speak to a professional tax adviser. Once we process your request, the amount you specify will be classified as a before-tax contribution and will count towards your before-tax contribution cap in the financial year we received the contribution.

The full picture is more complicated

Contribution caps apply to contributions going into all your super funds, not just the contributions you make to us. For more information about contribution caps, please see the ATO website at ato.gov.au

Find out more

See our easy step-by-step guide to growing your super at art.com.au/contributions

Top up your spouse's super or have your spouse top up yours

A spouse is someone you're legally married to, in a relationship with that is registered under a prescribed state or territory law, or in a de facto relationship with. De facto means you live together as a couple. There are 2 different ways you can give your spouse's super a boost. You might also save on tax.

1 Split contributions with your spouse

Move some of your before-tax contributions to your spouse's super and you both may benefit.

You can split whichever is less of:

- up to 85% of the before-tax contributions you made for a financial year
- your before-tax (concessional) contributions cap for that year.

2 Deposit money into your spouse's account

Contribute your after-tax money to help your spouse's super grow. You may be able to claim up to \$540 in a tax offset if your partner earns less than \$40,000 a year and you are eligible. You should know their earnings include assessable income (disregarding any amount released to your spouse under the first home super saver scheme), reportable fringe benefits and reportable employer super contributions.

Here's how the spouse super tax offset can work for you:

| Tax offset on a \$3,000 contribution | |
|--------------------------------------|--------------------|
| Spouse Income | What you can claim |
| \$37,000 or less | \$540 |
| \$38,000 | \$360 |
| \$39,000 | \$180 |
| \$40,000 | \$0 |

Find out more

You can find out more about spouse contributions to super at art.com.au/spousecontributions

Eligibility requirements and time limits apply. For more information, please see the ATO website at ato.gov.au

Receive government contributions

The Australian Government may help you to grow your super in 2 different ways if you are a low or middle-income earner.

1 Government super co-contributions

You might be able to grow your super with a bonus from the Australian Government.

If your total income is less than \$62,488 in 2025-26, and you are eligible, the government automatically adds 50c for every dollar that you pay into your super after tax as a personal contribution. The maximum the government co-contribution can go up to is \$500.

The government will automatically pay this if you're eligible. You don't need to apply. After you lodge your tax return, the ATO works out if you get a co-contribution and pays it to your account.

This table shows you how much you need to contribute to your super to get the maximum co-contribution from the government.

| Your total income | Your after-tax contribution | Max government co-contribution |
|-------------------|-----------------------------|--------------------------------|
| \$47,488 or less | \$1,000 | \$500 |
| \$52,488 | \$666 or more | \$333 |
| \$57,488 | \$334 or more | \$167 |
| \$62,488 or more | Any amount | \$0 |

2 Low-income super tax offset (LISTO)

The Australian Government may boost your super savings by giving you a low income super tax offset (LISTO) of up to \$500.

The LISTO aims to help you save for retirement by making sure you generally pay less tax on the super contributions you make than you do on your take-home pay.

You may be eligible for the LISTO if:

- you or your employer pay concessional (before tax) contributions (including SG amounts) for the year to a complying super fund
- your total income is \$37,000 per year or less (after adjustments¹)
- you lodge a tax return and 10% or more of your total income comes from business and/or employment, or you don't lodge a tax return and 10% or more of your total income comes from your employment
- you didn't have a temporary resident visa during the year (New Zealand citizens in Australia are eligible for the payment).

You should know: 1 To work out your eligibility, the ATO will use your actual or estimated adjusted taxable income. For more information on adjusted taxable income, please see ato.gov.au

Find out more

You can find out more about getting a government bonus on your super at art.com.au/members/add-to-super/government-co-contribution

Combine your super

Combining your super into one account now may mean you have more super later. Having your super in one account could save you money and make your life easier because you may:

- pay less in administration fees
- have less paperwork
- keep track of your super more easily
- have only one set of insurance costs.

You may also have lost super

If you've ever changed jobs, moved house or changed your name, chances are you might have some lost super. If you combine your super into one account, it means you always know where your super is.

To search for your lost super, you can go to [Member Online](#).

Before you combine your super

Before you combine your super, think about whether it's right for you. You may lose access to benefits such as insurance or pension options, and you need to consider tax implications. You may wish to talk to a financial adviser.

Find out more

To compare super funds, go to moneysmart.gov.au/how-super-works/choosing-a-super-fund

To combine your super, go to [Member Online](#) or our app and we'll guide you through the process. It only takes a few minutes.

Take money out of your super

In this section, learn how to access your super.

We show you:

- When you can take money out of your super
- How you can take money out of your super

Take money out of super

Super aims to help you save for your retirement, so there's some rules around when you can access it. Find out when and how you can access your super money.

When you can access your super

Your super generally isn't available until you are:

- age 60 and permanently retired or leave your employer
- over 65 years old.

You might be able to access your super early

You might be able to access your super before retirement if:

- you are experiencing financial hardship or need to access your super for compassionate reasons
- you have medical reasons such as permanent incapacity or a terminal medical condition
- you're a first home buyer who wants to access your extra contributions under the First Home Super Saver Scheme
- you're a temporary resident who is departing Australia.

Specific eligibility requirements apply. For more information on accessing your super early, please see art.com.au/early-access

You might have some super you can access anytime

You may have a portion of your super that's known as 'unrestricted non-preserved'. You'll be able to see if you have any on your annual statement or in [Member Online](#). If you have any of this money, call us to see your options to access it.

Retirement calculator

Try our Retirement calculator available at art.com.au/calculator to see how much super you might have for retirement.

How to access your super

We can help manage your super for your lifetime. So, while you're working, you are saving for your future using our Accumulation account. Then when you're nearing – or in – retirement you can start spending your money. You can get the benefits of our Income account and/or a Lifetime Pension when you're ready to access your money. You can find the full details about these products, and how to apply, in our Product Disclosure Statement for Income Account and Lifetime Pension at art.com.au/pds

When you are eligible to access your super, you have the following options. You could also choose a combination of these 3 options to suit your needs.

Open an Income account and/or a Lifetime Pension and start receiving regular payments from your superannuation

Withdraw it as cash, all at once or in stages

Leave your super where it is for a while

How you might choose to access your money

1. Receiving regular payments

This is how to turn your super into a regular income stream.

You can transfer all or some of your money from your Super Savings Accumulation account to a Super Savings Retirement Income account. You can then set up regular payments from your Retirement Income account to your bank account. You can choose how much you take out and how often you get these payments (within certain limits).

You can use our Lifetime Pension together with a Retirement Income account for a flexible retirement solution. With a Lifetime Pension you can enjoy the security of knowing you have an income for the rest of your life.

2. Withdrawing as a lump sum

You can keep all or some of your money in your super account and make lump sum withdrawals into your bank account.

You can withdraw as much as you need, whenever you need it. Tax may apply on withdrawals depending on your age.

Please see more information on how tax on super works from page 42.

3. Leaving your money in super

You can leave your money in your Super Savings Accumulation account for as long as you want, even after you're allowed to withdraw it. This gives you more time to decide how you would like to access your retirement savings and your money will stay invested and may keep growing in the meantime.

You can also transition to retirement

When you turn 60 but you're under 65 and not quite ready to retire, you can still access your super while you're working. With our Transition to Retirement Income account, you can cut back on the hours you work and top up your income using your super. You can find out more in our Product Disclosure Statement for Income Account and Lifetime Pension at art.com.au/pds

This is how some of your options work:

- You can transfer some or all of your super money to set up an income stream using one or more retirement solutions, and/or
- You can retain your super in an Accumulation account and continue to pay tax on investment earnings, and withdraw your super as lump sums when needed. You can also make withdrawals from an Income account.

If you want to turn your super into a regular income stream you can consider these options:

Open a Retirement Income account

Turn your super into a regular income with our Retirement Income account. Your money stays invested so your savings may continue to grow. You may be able to get tax benefits to help you grow your super in retirement.

Buy a Lifetime Pension

A Lifetime Pension provides an income for the rest of your life, so you don't have to worry about your savings running out. It may even increase your Age Pension payment, if you're eligible.

A bonus when you retire

You could be eligible for the bonus we currently pay when you open a Retirement Income account and/or Lifetime Pension. Find out about our Retirement Bonus, including eligibility, in our Product Disclosure Statement for Income Account and Lifetime Pension at art.com.au/pds or go to art.com.au/retirement-bonus

We're here to help

Find out more about how to access your super at art.com.au/superannuation/access or call us today on **13 11 84**.

A woman with short brown hair, wearing a dark blue sweater and jeans, is leaning forward to help a young girl with long brown hair, wearing a blue long-sleeved shirt and shorts, climb onto a small wooden stool. The girl is wearing white socks with a pink and blue pattern. The woman is holding the girl's hand. The background shows a playroom with colorful blocks and toys.

Invest your super to reach your goals

In this section, learn how we invest your money.

We show you:

- The options we offer
- How we automatically invest your money if you don't want to make a choice

Invest your super to reach your goals

When you have an Accumulation account with us, you have access to a wide range of investment options you can choose from or combine. You can also change your choices as your circumstances change.

You can let us invest for you. With Lifecycle Investment Strategy, we adjust your investments for you throughout your life based on your age. We invest your money in higher-growth, higher-risk investments when you're young and may be able to take on more risk. When you're closer to retiring, we include some more lower-risk investments with lower expected returns. We do this for you, so you don't have to.

You can have more control and choose your own investment strategy. You can choose from our diversified options that we've designed and manage. You can choose your own strategy from one or more asset classes. You can choose a combination of our lifecycle, diversified and/or asset class options. You can decide what's right for you.

Let us invest for you

Our sustainable investing approach

Sustainability-related risks and opportunities, including labour standards and climate change, can be financially material for companies. As a result, they may affect our investments. We believe that incorporating financially material sustainability factors into our investment process can help us to manage investment risks and can lead to opportunities for investment. This includes a target of a net zero greenhouse gas emissions investment portfolio by 2050¹, as we outline in our Net Zero 2050 Roadmap.

For more information on our approach, please see our Sustainable Investment Policy and our Net Zero 2050 Roadmap at art.com.au/responsible-investing and our Investment Guide at art.com.au/pds

¹ Our net zero target refers to the Scope 3 category 15 (investments) emissions and is aligned with the Paris Agreement goal of limiting global warming to well below 2°C.

Lifecycle Investment Strategy

Lifecycle Investment Strategy is our Accumulation account investment option if you want to let us invest for you.

Designed to grow your super

Automatically adjusts your investment strategy based on your age

We manage your investments, so you don't have to

✓ Grow your super

We've designed Lifecycle Investment Strategy to help you grow your super over the long term.

✓ Adjusts based on your age

We use your age to set an investment strategy that aims to suit your life stage. This means we invest your money in higher-growth, higher-risk investments when you're younger. Then we include some more lower-risk investments, with lower expected returns, as you get closer to retirement.

✓ Leave the hard work to us

We adjust your investments depending on your age. We move your money and manage your investments for you, so you don't have to.

✓ Find out more

For more information on Lifecycle Investment Strategy, please see art.com.au/lifecycle

How we invest your super in Lifecycle Investment Strategy

We invest your super for you and move your investments between 3 lifecycle investment pools. We recognise that if you're starting out at work, you may have very different investment needs than when you're approaching retirement.

When you're younger

We invest 100% of your account balance in our High Growth Pool until you turn 50.

The High Growth Pool invests in different asset classes, so your investments aren't all in one place. We invest in growth assets, like shares, so we can help grow your super over the long term. Growth assets also have a higher risk of short-term ups and downs. We aim to deliver strong returns while you're still in a life stage where you may be able to take on additional risk.

When you're approaching retirement

Between the ages of 50 and 65, we gradually move your money to the Balanced Pool and the Cash Pool. By your 65th birthday your Lifecycle Investment Strategy account balance will be invested around 80% in the Balanced Pool and 20% in the Cash Pool. After you turn 50, we also allocate any future contributions, including any rollovers from other super funds, across the investment pools, with an increased proportion going to the Balanced and Cash pools as you get older.

Compared to the High Growth Pool, the Balanced Pool is a lower-risk pool and holds fewer growth assets, such as shares, and more defensive assets. It's important to note that the Balanced Pool has a Medium to High risk label. The Cash Pool is invested in 100% defensive assets.

Choose your investment strategy

Choose where to invest your money. You can choose from diversified options we've designed. You can also choose to build your own strategy using one or more asset classes. You can choose a combination of our diversified and/or asset class options. You can decide what's right for you.

Diversified options

We offer a range of options where we've done the diversification for you. Our 8 diversified options:

- invest in a mix of assets to help reduce the impact of poor returns from a single asset class
- have different risk and return objectives to suit different investment needs.

Asset class options

We offer a range of asset class options you can use as the building blocks to mix and manage your investment portfolio. Our 7 asset class options:

- give you more control over your investment strategy
- allow you to diversify your portfolio by choosing how much of your super you invest in each asset class
- let you manage your mix of options on an ongoing basis.

Note: When choosing how to invest your super, please consider:

- the level of returns you want
- the risk you can or should take to reach your investment goals
- your investment timeframe.

You can change your investments as often as you like

Simply go to [Member Online](#) or our app.

We reserve the right to limit investment switches and partial withdrawals.

From time to time we may change the investment options we offer

We may add to, close, or change our investment options from time to time. We'll notify you of any significant change.

Consider seeking financial advice

A professional financial adviser can help you develop an investment strategy to meet your needs. Financial advice may help give you peace of mind that your investment choice is appropriate for your needs or help develop an investment strategy for your unique investment goals.

Find out more

Our Investment Guide explains our full range of investment options, including the risks of each option. Our Investment Guide forms part of each of the product disclosure statements for Super Savings Accumulation accounts, Super Savings – Business Accumulation accounts and Super Savings – Corporate Accumulation accounts. You can find it at art.com.au/pds or call us and we'll send a copy to you.

A man with dark hair and a mustache is sitting on a wooden pier, holding a young child in his arms. The child is wearing a blue shirt and dark shorts. The pier is made of weathered wooden planks and beams, and the background shows a beach and the ocean under a clear sky.

Insurance in your super

In this section, learn about insurance you can receive with your super.

We show you:

- The cover you may automatically receive with your Accumulation account
- How you can personalise your cover to better suit your needs

Important: The information in this section does not apply to Super Savings – Business and Super Savings – Corporate Accumulation accounts. Insurance within those products is specific to the relevant employer plan for the product. Please see the applicable PDS and the applicable Insurance Guide referred to in the PDS for insurance information relevant to those accounts.

Insurance in your super

We provide insurance for when life doesn't go to plan.

The cover we offer

The right insurance cover can help you and your family feel prepared and protected. We design all our cover to help provide you with security and peace of mind. We offer 3 types of cover:

Death cover

Designed to pay a benefit if you die. You may be able to receive an insurance benefit if you are diagnosed with a terminal illness. You'll need to meet the 'terminal illness' definition.

Total and permanent disability (TPD) cover

Designed to pay a benefit if you can't ever work again. You'll need to meet the relevant definitions of total and permanent disablement for your cover.

Income protection

Designed to pay you a replacement income, up to your maximum benefit, if you can't work temporarily because you're sick or injured. You'll need to meet the relevant definition of disablement for your cover.

Important: Please find the details of our cover and definitions of the words we use in insurance in our Insurance Guide at art.com.au/pds

Cover with your Accumulation account

If you're eligible, you'll automatically receive Standard cover with your Accumulation account.

The types of cover you can automatically receive are Standard Death and Total & Permanent Disability (TPD) Assist cover. If you want to receive income protection cover, you'll need to request Opt-In Income Protection cover or apply for Tailored Income Protection cover.

Eligibility to automatically receive Standard cover includes:

- being 25 years of age or older, **and**
- having a Super Savings Accumulation account balance that has reached \$6,000.

If you don't automatically receive Standard cover or you just want to change your cover, you can opt in to Standard cover sooner or apply to personalise your insurance cover to suit your needs. This can include occupationally rating your premiums.

We design our insurance cover to be flexible, so that as your life changes so can your cover.

There are costs associated with insurance cover.

We're here to help

If you're not sure if you're eligible for Standard cover, call us today on **13 11 84**.

Corporate or Business employer arrangements

For Super Savings – Business and Super Savings – Corporate Accumulation accounts, insurance is specific to your employer plan. See more at your microsite.

How cover starts

You can automatically receive Standard cover if you're eligible. You can also choose ways to personalise your cover to better suit your needs. With insurance in your Accumulation account, you can be confident you can get on with life knowing you're protected.

Receive Standard cover automatically

- ✓ Receive Standard cover automatically when you meet eligibility conditions.
- ✓ You're automatically covered for death, terminal illness and TPD.

or

Choose or apply for cover

- ✓ Opt in to Standard cover if you don't qualify automatically.
- ✓ Choose options to personalise your cover.
- ✓ Apply for Tailored cover to better suit your needs.

How to choose your insurance

Everyone's insurance needs are different. But your insurance cover doesn't have to be complicated. Here's how to get on top of your insurance cover:

Check your current insurance

Log in to [Member Online](#) to see your current level of cover. If you don't have cover, you can apply in [Member Online](#).

Work out how much cover you need

Use our Insurer's insurance needs calculator¹ at art.com.au/insurance to estimate how much insurance you might need.

We're here to help

Read our Insurance Guide or call us today on **13 11 84**.

¹ AIA Australia provides and is responsible for the insurance needs calculator. The Trustee does not endorse, and is not responsible for, the calculator or its outputs. The estimates the calculator produces are illustrative. You should consider getting financial advice before making any decisions.

To apply for cover:

1. Please read our Insurance Guide that explains our insurance and shows you the premiums you pay, and other important information.
2. You can apply via [Member Online](#) or call us on **13 11 84** to be sent an application form.

How to make an insurance claim

If you need to make a claim, we're here to help and guide you. We aim to pay all eligible insurance claims as quickly as possible. Your first step is to contact us. You can call us on **13 11 84** or reach us via [Member Online](#).

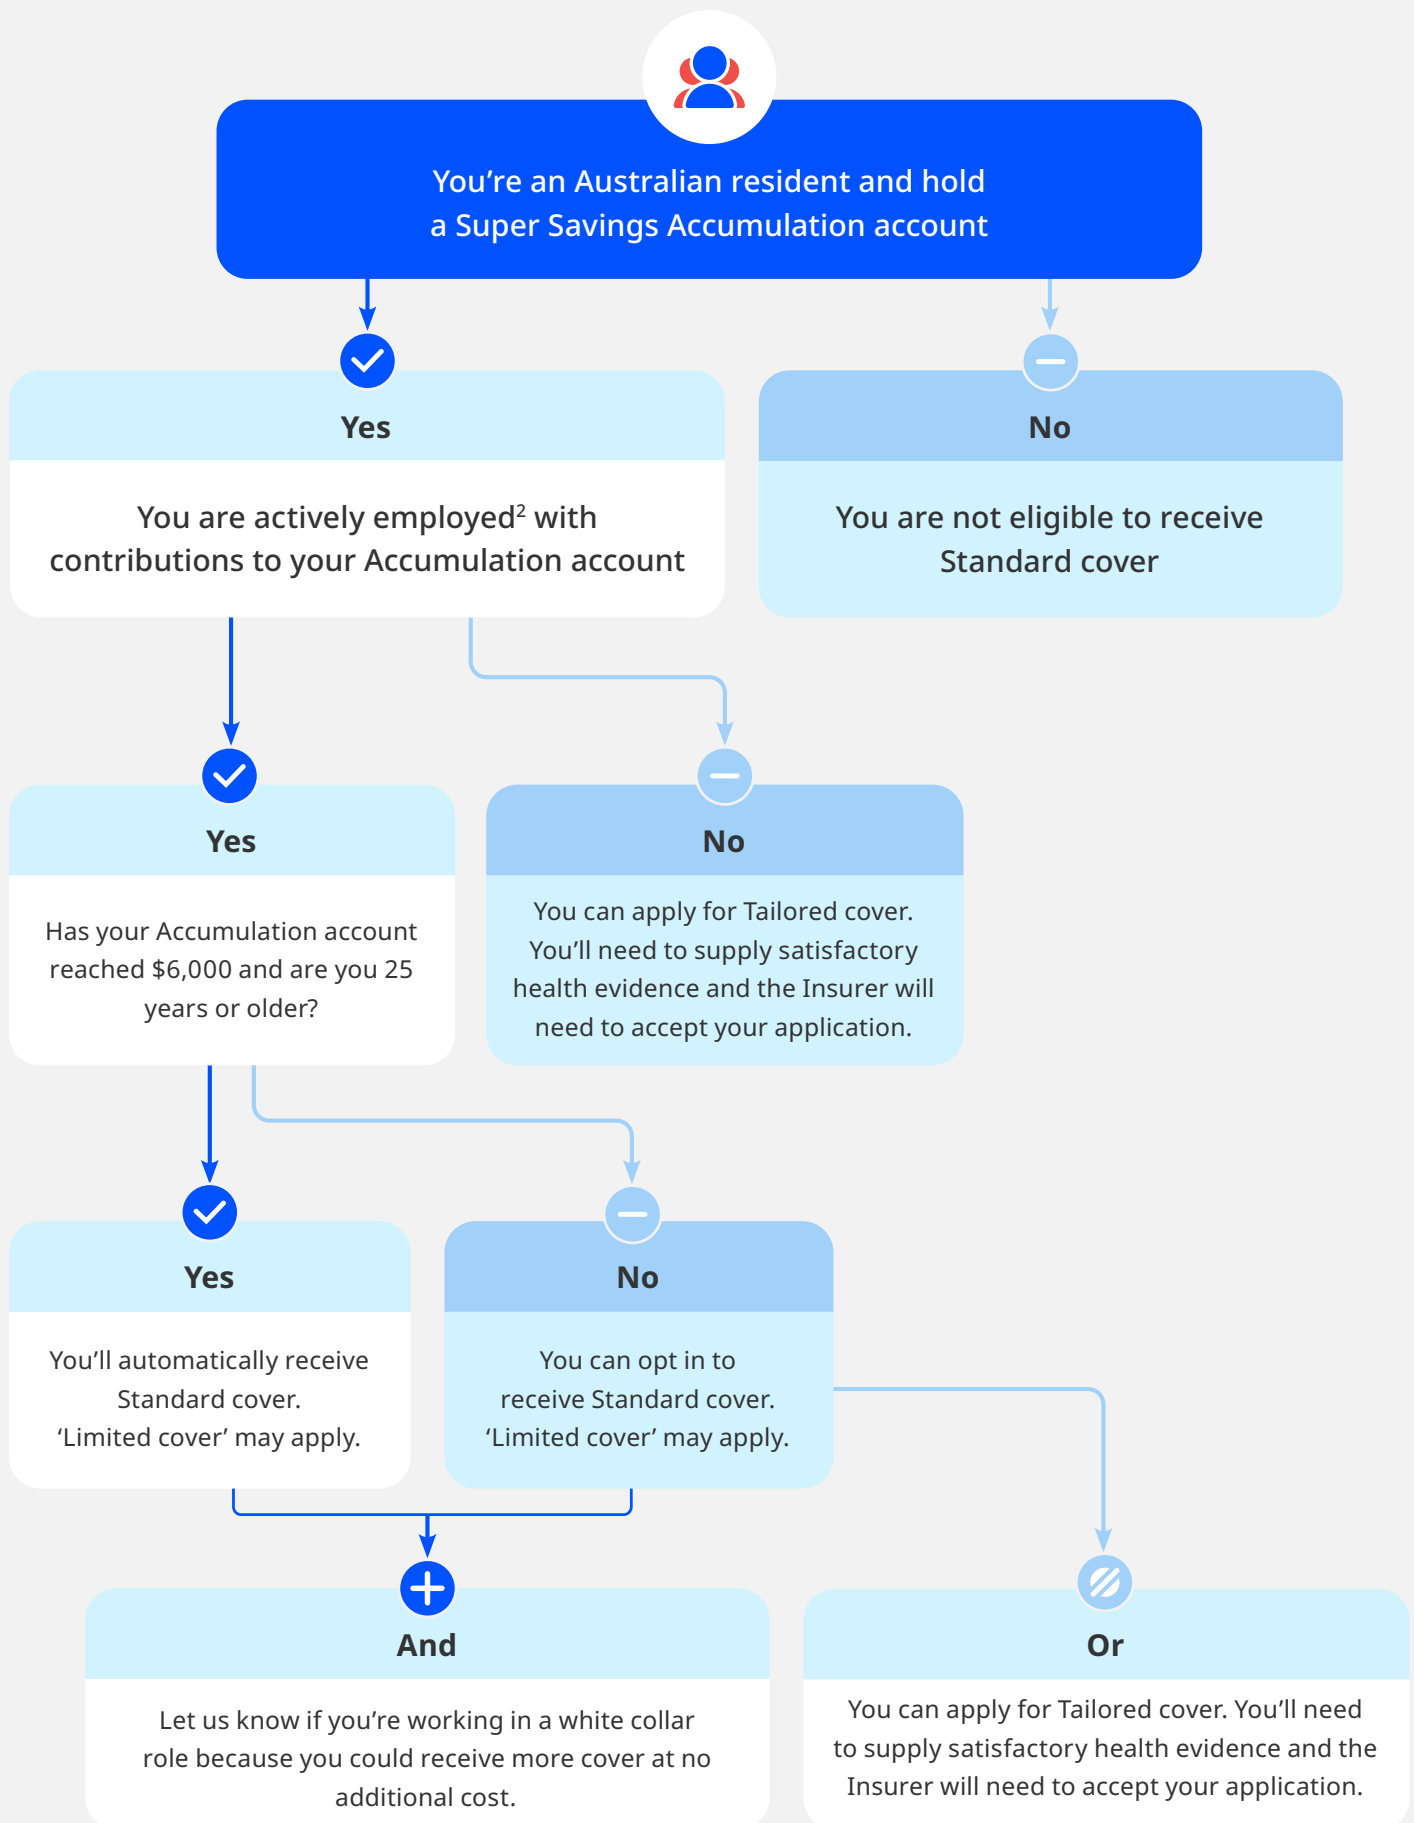

Find out more

Read our Insurance Guide at art.com.au/pds

Find out more about our insurance at art.com.au/insurance

Your eligibility checklist to automatically receive Standard cover¹

¹ See eligibility for Standard cover in our Super Savings Insurance Guide at art.com.au/pds. Standard Death cover ends at age 70. Standard TPD Assist cover ends at age 67. Additional cover available: Opt-In Income Protection cover, if you have Standard Death and TPD Assist cover.

² You will be actively employed if you satisfy the 'at work' definition at the date your automatic Standard Death and TPD Assist cover starts.

Leave your super to your loved ones

In this section, learn how to tell us what to do with your super when you die.

We show you:

- What happens to your super when you die
- How to tell us who should get your super
- Who can receive your super

Leave your super to loved ones

Your super doesn't automatically form part of your estate. So, it's important you let us know who you would like to receive your super when you die.

What happens with your super when you die

When you die, what happens to your super and any insurance you have with your account depends on what you've told us to do.

You may have nominated the person or people you would like us to pay your super to when you die – they are your nominated beneficiaries.

If you die and haven't told us who should get your super, or your nomination is invalid or out-of-date, we usually pay your death benefit money to your dependants, such as your spouse or children. In some circumstances, we may pay your death benefit money to your legal personal representative. If this happens, the executor of your Will or administrator of your estate will deal with it.

When we're told of your death and are in the process of paying your super out, we will switch your investments to our Cash option, our lower-risk option that invests 100% in defensive assets.

The tax on your death benefit money depends on who we pay it to and how they want to receive the payout. They might want to access it all at once or, if eligible, use it to open an Income account.

How to tell us who should get your super

You can make sure who receives your super by making a valid binding death benefit nomination. You can do this by logging in to [Member Online](#) or sending us the form. We'll follow your choice as long as you have a valid nomination in place when you die.

Please see art.com.au/beneficiary for more information on your options, including how preferred beneficiary nominations work.

There are different options for our Income account and Lifetime Pension products. For more information on these products, please see our Product Disclosure Statement for Income Account and Lifetime Pension at art.com.au/pds

Let us know who you would like to leave your super to. Make a nomination via [Member Online](#) or complete and send us a Binding Death Benefit Nomination form from art.com.au/forms-and-tasks

Who can receive your super

There are rules about who you can nominate to receive your super. The people you can nominate include:

Your spouse

Includes same-sex and de facto partners.

Your child

Includes adopted children, stepchildren, ex-nuptial children, children of your spouse and any child within the meaning of the *Family Law Act 1975* (Cth).

Your financial dependant

Someone who was receiving regular financial support from you at the time of your death.

Someone in an interdependency relationship with you

This means:

- you have a close personal relationship with someone
- you live together
- one or both of you provides financial and domestic support and personal care for the other.

You may also be in an interdependency relationship with someone if you have a close personal relationship with them but you do not satisfy the other criteria above because one or both of you suffer from a physical, intellectual, or psychiatric disability or you are temporarily living apart.

Your legal personal representative

You can also nominate your legal personal representative (the executor of your Will or administrator of your estate) to receive your super and distribute it as part of your estate. If you want us to pay your super to your legal personal representative, you should consider making a binding death benefit nomination.

Find out more

Call us today on **13 11 84** or visit art.com.au/beneficiary

Manage your super

In this section, learn how to be in control of your super.

We show you:

- Your tools to stay on top of your money
- When transactions are processed
- Risks of super
- How we protect your super against fraud

Manage your super

We aim to make it easy for you to stay in control of your super.

How to stay on top of your super

With your Accumulation account, you have access to:

Member Online and our app. Check your super balance, update your details, manage your investments and check your insurance cover generally available 24 hours a day, 7 days a week.

Calculators and tools for your super, your insurance, your savings and your retirement.

Seminars, podcasts, articles, online learning and videos to help you with your super and all your money.

Your annual statement. You can see how your investments have been performing for you.

Our fund information on our website about our performance for each financial year.

Other documents that we need to legally provide you throughout the year.

If you start a new job

You'll keep your super money with the same fund when you change jobs, unless you choose a different fund. The Australian Government call this stapling your super account to you.

Getting your new employer to pay your super into your Accumulation account also means any insurance cover that you have with us will continue.¹

For more information about your super when you change jobs, please see art.com.au/changing-jobs

¹ Different conditions apply for Super Savings – Business and Super Savings – Corporate members. Please refer to your Super Savings – Business Insurance Guide or your Super Savings – Corporate Insurance Guide respectively.

If you want to close your account

You have 2 options if you want to close your account with us:

1. Transfer to another super fund. You can find the Transfer to Another Super Fund form at art.com.au/forms-and-tasks
2. If you're able to withdraw your money, you can transfer it all out of your account. We'll close your account when it has no funds in it.

Important: We will not process a request to transfer part of your account balance to another super fund if the amount remaining in your account will be less than \$6,000 at the time of processing.

When transactions are processed

Transactions are processed at different times depending on the type of transaction.

We usually calculate unit prices in each investment option each business day. Effective unit prices for Super Savings products are based on the value of the net assets in the option at the applicable close of business in all relevant domestic and international markets for that day.

Money received into the Fund

Money received into the Fund includes contributions and rollovers we receive on your behalf.

Money received into Australian Retirement Trust's bank account on a business day via Electronic Funds Transfer (EFT), BPAY® or Direct Debit will be processed using the effective unit price for the day of receipt.

Contributions paid via a cheque or Money Order and received by mail or in person at our Brisbane office by 3pm AEST on a business day will be processed using the effective unit price for the day of receipt. Contributions received after 3pm AEST will be processed using the effective unit price for the business day after day of receipt. Processing timeframes at financial institutions should be allowed when meeting contribution deadlines, such as at the end of a quarter or financial year.

Processing of the transaction will generally be completed one day after receipt to allow determination of the effective unit price.

® Registered to BPAY Pty Ltd ABN 69 079 137 518

Contributions tax

Where applicable, when you make a contribution, 15% of your contribution is deducted to pay contributions tax before purchasing units in your selected investment option(s).

Contributions tax is held in the Fund's general reserve until the ATO requires remittance of the tax that is payable on contributions. Any earnings in the general reserve on these amounts are retained in the general reserve.

Changes to your investment option(s)

Requests to change your investment option(s) for your existing account balance received by 3pm AEST on a business day will be processed using the effective unit price for that day. Requests received after 3pm AEST on a business day, or at any time on a non-business day (weekends or national public holidays) will be processed using the effective unit price for the next business day.

Processing of the transaction will generally be completed one day after receipt to allow determination of the unit price.

Payments and transfers between accounts

Withdrawals, payments, rollouts and transfers from your accounts will be processed using the effective unit price on the day the transaction is processed.

The processing of payments and transfers can be lengthy, considering the required information level and our dependency on external parties, including employers and other super funds. Given the time required to process requests, the investment value may fluctuate during the processing period.

Administration fees and insurance premiums

We deduct administration fees and insurance premiums using the effective unit price on the day of the transaction. Please see our Insurance Guide for details on insurance premiums.

Exceptions

Delays may occur in the processing and pricing of contributions, rollovers and transfers, investment option changes and benefit payments if we don't have all the information required to process the transaction. Delays may also occur if we don't receive payment for contribution payments by the due date.

If for any reason we can't allocate money received to an account, including if we do not have all the information we need, we will return it. We will return only the amount we received to whoever it was received from.

If we earn any bank account interest on money received, then we'll retain that interest in the Fund's general reserve for the benefit of all our members.

We reserve the right to temporarily suspend the processing of member transactions and the calculation of unit prices if:

- we have permission from a regulator
- we are required to by law
- on the occurrence of an extraordinary event.

An extraordinary event is any significant event that we consider, on reasonable grounds, means that the price at which a contribution or redemption would be processed would not be fair and reasonable or cannot be determined. Such an event may impact some or all members and may include the suspension of normal trading on any exchange which trades securities or derivatives held for an investment option. To confirm transactions involving your account, log in to [Member Online](#) or the Australian Retirement Trust App or contact us on **13 11 84**.

We reserve the right to restrict the allocation of contributions, investment option changes and payments to any one or more investment options.

Risks of super

Super is a long-term investment and, like all investments, carries risk.

Your level of risk will vary depending on factors like:

- what your account is invested in
- your age
- how long you're investing for
- what level of return you want and how much risk you'll take to get it.

Risks you should know about when investing in super include:

- The value of your super will go up and down over time
- Your investment returns will vary, and future returns may be different to past returns
- There's no guarantee of returns on your investments and you may lose some or all of your money

We explain the risks of investing in super in our Investment Guide available at art.com.au/pds

Risks with your Accumulation account also relate to choices you make about your money and your account, such as whether you have insurance with your super. Risks include other factors like changes to the law or whether you'll have enough money to last your retirement.

Risks you should know about for your Accumulation account include:

- If you put extra money into your super, you generally won't be able to access that money or ask for it back until you retire. Please see when you can access your super on page 17.
- Your super may not go to who you want it to when you die if you haven't made a binding death benefit nomination that's legally valid. Please see how to tell us who should get your super on page 28.
- The laws affecting your super may change in the future.
- The amount of the savings you have in your super may not be enough for you to have the retirement you want. It may not be enough to last your remaining lifetime. This might be the case even if you contribute extra money.
- If the cost of living (inflation) grows faster than the returns in your super, your super may be worth less in real terms. We call this inflation risk. Please see our Investment Guide for more information on this risk.

- Your super is subject to the same risks as your bank account such as fraud or people trying to steal your personal identity. See how we protect your super against fraud on page 32.

Risks you should know about insurance in your super include:

- You may have or apply for insurance cover that's not right for you and doesn't suit your needs.
- You need to consider both your needs and the costs of cover because paying for cover from your super will impact your retirement savings.
- If you apply for cover, you may not be eligible to receive cover. So, you shouldn't cancel or change other insurance arrangements you may have until you have new cover in place.
- As your circumstances change, your eligibility to apply for cover and the cost of your cover may also change.

How we protect your super against fraud

Keeping your account safe is our priority, including protecting you against identity fraud.

Here's what you can expect from us:

- If you call us, we'll ask you some questions so that we can verify your identity.
- We'll also call you if we're suspicious about account activity such as a benefit payment or transfer request.
- When we write to you, we won't include unnecessary personal information such as your date of birth.
- We monitor benefit payment and transfer requests to detect any that may be fraudulent.
- We have security measures in place to help reduce the risk of unauthorised access to confidential data and documents.
- We have proof of identity measures in place.

Important: We'll never contact you to ask you for the login details for your super account. You should never share your super account or myGov login details with anyone who contacts you.

Find out more

Find out more about how we work to keep your super account safe at art.com.au/protecting-your-super-against-fraud

Fees and costs

In this section, learn about the fees and other costs we may charge.

We show you:

- Fees and costs that you may pay
- Examples of how the annual fees and costs may affect your account
- Explanations of the fees and costs

Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

Note: Please note that we do not negotiate fees and costs with members. You can use the ASIC superannuation calculator to calculate the effect of fees and costs on account balances.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and other costs may be deducted from your money, from the returns on your investment or from the assets of the superannuation entity as a whole.

Other fees, such as activity fees, advice fees for personal advice and insurance fees, may also be charged, but these will depend on the nature of the activity, advice or insurance chosen by you. Entry fees and exit fees cannot be charged.

Taxes, insurance fees and other costs relating to insurance are set out in another part of this document.

You should read all the information about fees and other costs because it is important to understand their impact on your investment.

Fees and costs summary

| Super Savings Accumulation account | | |
|--|---|--|
| Type of fee or cost | Amount | How and when paid |
| Ongoing annual fees and costs¹ | | |
| <i>Administration fees and costs</i> | \$1.20 per week | We generally deduct it each week in arrears from your account if you have a balance. We don't pro-rata for partial weeks. |
| | Plus 0.10% p.a. on the first \$500,000 of your account balance | We generally deduct it each week in arrears from your account. It is pro-rated for partial weeks. |
| | Plus 0.05% p.a. | When the administration costs exceed member administration fees collected these costs are met from our general reserve, not from your account balance or investment returns. We estimated this amount as 0.05% for the year ending 30 June 2025. |
| <i>Investment fees and costs^{2,3}</i> | For the Lifecycle Investment Strategy: 0.49% to 0.65% p.a. of your account balance. For other investment options: 0.07% to 1.70% p.a. of your account balance. The investment fees and costs vary according to which investment options you choose. See the table on page 38 for the specific investment fees and costs for each investment option. | Calculated on a daily basis and deducted from investment returns before we declare the unit price on business days. |
| <i>Transaction costs³</i> | For the Lifecycle Investment Strategy: 0.04% to 0.05% p.a. of your account balance. For other investment options: 0.00% to 0.06% p.a. of your account balance. The transaction costs vary according to which investment options you choose. See the table on page 38 for the specific transaction costs for each investment option. | Calculated on a daily basis and deducted from investment returns before we declare the unit price on business days. |
| Member activity related fees and costs | | |
| <i>Buy-sell spread</i> | Nil | |
| <i>Switching fee</i> | Nil | |
| <i>Other fees and costs⁴</i> | Other fees and costs may be deducted from your account, such as advice fees for personal advice. Refer to 'Additional explanation of fees and costs' for details. | |

¹ If your account balance for a product offered by the superannuation entity is less than \$6,000 at the end of the entity's income year, certain fees and costs charged to you in relation to administration and investment are capped at 3% of the account balance. Any amount charged in excess of that cap must be refunded. ² Investment fees and costs includes an amount of 0.00% to 0.92% p.a. for performance fees. The specific performance fees for each option and the calculation basis for these amounts are set out under 'Additional explanation of fees and costs'. ³ Your investments in our Lifecycle Investment Strategy pools vary depending on your age and your investment fees and costs and transaction costs vary accordingly, so we show you the range in this summary table. The estimated investment fees and costs totaling 0.49% p.a. and the 0.04% p.a. transaction costs for the Lifecycle Investment Strategy are estimated based on an investment allocation of 80% Balanced Pool and 20% Cash Pool. The investment fees and costs and transaction costs are estimates only. We explain the calculation basis for investment fees and costs and transaction costs under 'Additional explanation of fees and costs'. ⁴ Refer to 'Additional explanation of fees and costs' in this guide.

Important: Lower administration fees and costs than those shown above may apply to some Super Savings – Business and Super Savings – Corporate Accumulation accounts. How and when those administration fees and costs are paid may also be different to the information shown above. For Super Savings – Business members, where these arrangements apply, we'll show them in your Plan Information Factsheet. Super Savings – Corporate members, please see Section 6 of your PDS.

Example of annual fees and costs for superannuation products

This table gives an example of how the ongoing annual fees and costs for the Lifecycle Investment Strategy – High Growth Pool for this superannuation product can affect your superannuation investment over a 1-year period. You should use this table to compare this superannuation product with other superannuation products.

| EXAMPLE – Lifecycle Investment Strategy High Growth Pool | | Balance of \$50,000 |
|--|--|---|
| Administration fees and costs | 0.15% p.a. ¹ of your account balance plus \$1.20 p.w. | For every \$50,000 you have in the superannuation product you will be charged or have deducted from your investment \$75 in administration fees and costs, plus \$62.40 regardless of your balance. |
| PLUS Investment fees and costs | 0.65% p.a. | And , you will be charged or have deducted from your investment \$325 in investment fees and costs. |
| PLUS Transaction costs | 0.05% p.a. | And , you will be charged or have deducted from your investment \$25 in transaction costs. |
| EQUALS Cost of product | | If your balance was \$50,000 at the beginning of the year, then for that year you will be charged fees and costs of \$487.40 for the superannuation product. |

Note: *Additional fees may apply. If you have insurance, premiums will apply. The above table showing an example of annual fees and costs for our MySuper option is illustrative only and based on the assumptions listed. The actual amount of fees and costs can vary depending on your investment option and other factors.

¹ A portion of the administration fees and costs are paid from the Fund's reserves, being 0.05%, which for a \$50,000 balance is \$25 of fees that will therefore not be deducted from your account. Please see 'Additional explanation of fees and costs' for more information.

Important: Lower administration fees and costs than those shown in the example above may apply to some Super Savings – Business and Super Savings – Corporate Accumulation accounts. Where those arrangements apply, the cost of product will also be lower than shown in the example above. For the example of fees and costs applicable to their product, Super Savings – Business members should refer to Section 6 of their PDS and their Business Plan Information Factsheet, and Super Savings – Corporate members should refer to Section 6 of their PDS and their Cost of Product Factsheet.

Cost of product for 1 year

The cost of product gives a summary calculation about how ongoing annual fees and costs can affect your superannuation investment over a 1-year period for all superannuation products and investment options. It is calculated in the manner shown in the 'Example of annual fees and costs'.

The cost of product information assumes a balance of \$50,000 at the beginning of the year. (Additional fees such as a buy-sell spread may apply. Refer to the Fees and costs summary for the relevant superannuation product or investment option.) You should use this figure to help compare superannuation products and investment options.

Important: Lower administration fees and costs may apply to some Super Savings – Business and Super Savings – Corporate Accumulation accounts. Where those arrangements apply, the cost of product for each investment option will be lower than shown on this page. For Super Savings – Business members, where these arrangements apply, they will be shown in your Plan Information Factsheet. Super Savings – Corporate members should refer to their Cost of Product Factsheet.

| Investment option | Cost of product ¹ |
|--|------------------------------|
| Lifecycle Investment Strategy² | |
| High Growth Pool | \$487.40 |
| Balanced Pool | \$457.40 |
| Cash Pool | \$172.40 |
| Other investment options | |
| High Growth | \$487.40 |
| Balanced | \$457.40 |
| Conservative-Balanced | \$452.40 |
| Conservative | \$432.40 |
| Balanced Risk-Adjusted | \$372.40 |
| Socially Conscious Balanced | \$457.40 |
| High Growth Index | \$177.40 |
| Balanced Index | \$177.40 |
| Australian Shares Index | \$177.40 |
| International Shares Hedged Index | \$177.40 |
| International Shares Unhedged Index | \$177.40 |
| Listed Property Index | \$187.40 |
| Unlisted Assets | \$1,017.40 |
| Bonds Index | \$177.40 |
| Cash | \$172.40 |

¹ A portion of the administration fees and costs are paid from the Fund's reserves, being 0.05%, which for a \$50,000 balance is \$25 of fees that will therefore not be deducted from your account. ² The Lifecycle Investment Strategy invests in the High Growth Pool, Balanced Pool and Cash Pool. Your allocation between the 3 pools varies depending on your age, and your cost of product will vary accordingly. For more information about Lifecycle Investment Strategy, please see our Investment Guide.

Additional explanation of fees and costs

Fee caps

The fee you pay has 2 different caps applied over a financial year period:

- **Low balance fee cap** – means that you won't pay more than 3% of your account balance for all administration fees and costs (excluding costs met from the general reserve), investment fees and costs and transaction costs if your account balance is less than \$6,000 at the end of a financial year. You'll be refunded any amount you pay over this cap.
- **Percentage fee cap** – means the 0.10% p.a. administration fee is only charged on the first \$500,000 of your account balance. It does not apply to costs met from the general reserve.

Investment fees and costs and transaction costs for each investment option

We charge investment fees and costs to manage each investment option. The investment fees and costs include the internal costs of managing investments and may include investment project related costs.

The investment fees and costs and transaction costs are estimates only. The investment fees component of investment fees and costs is estimated based on recent experience and our expectations for the financial year ending 30 June 2026. The investment costs component of investment fees and costs, and the transaction costs, are generally calculated based on the actual costs incurred for the year ending 30 June 2025. Where actual costs weren't available, we've used reasonable estimates of actual costs.

The actual amount you'll be charged will depend on the actual fees and costs the Trustee incurs in managing the investment option.

Investment fees and costs include an amount for performance fees, which are calculated differently. We describe performance fees and set out the performance fees for each option in the table on page 39.

| Investment option | Investment fees and costs (% p.a.) | Transaction costs (% p.a.) |
|--|------------------------------------|----------------------------|
| Lifecycle Investment Strategy ¹ | | |
| High Growth Pool | 0.65 | 0.05 |
| Balanced Pool | 0.59 | 0.05 |
| Cash Pool | 0.07 | 0.00 |
| Other investment options | | |
| High Growth | 0.65 | 0.05 |
| Balanced | 0.59 | 0.05 |
| Conservative-Balanced | 0.58 | 0.05 |
| Conservative | 0.54 | 0.05 |
| Balanced Risk-Adjusted | 0.42 | 0.05 |
| Socially Conscious Balanced | 0.58 | 0.06 |
| High Growth Index | 0.08 | 0.00 |
| Balanced Index | 0.08 | 0.00 |
| Australian Shares Index | 0.08 | 0.00 |
| International Shares Hedged Index | 0.08 | 0.00 |
| International Shares Unhedged Index | 0.08 | 0.00 |
| Listed Property Index | 0.08 | 0.02 |
| Unlisted Assets | 1.70 | 0.06 |
| Bonds Index | 0.08 | 0.00 |
| Cash | 0.07 | 0.00 |

¹ The Lifecycle Investment Strategy invests in the High Growth Pool, Balanced Pool and Cash Pool. Your allocation between the 3 pools varies depending on your age, and your investment fees and costs and transaction costs will vary accordingly. For more information about Lifecycle Investment Strategy, please see our Investment Guide.

Performance fees

We generally incur investment fees and costs from our investment managers based on a percentage of the market value of the funds managed. In some cases, managers may have a base fee plus a performance fee that we pay if assets they manage beat certain performance targets.

Performance fees form part of investment fees and costs. They're part of the amounts we show you as investment fees and costs in the relevant PDS and guides.

We believe that performance fees encourage our investment managers to try to deliver sustained investment performance.

Performance fees are difficult to predict because they're based on future investment performance of many underlying investments. They're not based on the performance of the whole investment option.

Where possible, we show you performance fees that are an average of the previous 5 financial years.

Australian Retirement Trust Super Savings started on 28 February 2022 and adopted the investment strategy of the former Sunsuper for life. For periods before this date, we've used equivalent Sunsuper for life fee data.

The Balanced Risk-Adjusted option became available to Super Savings members on 1 July 2024 but has previously been available to QSuper account holders. The performance fees shown for this option are an average of the previous 5 financial years, based on QSuper investment fee and cost information.

Our High Growth Index option started on 1 July 2024. Performance fees for that option are based on actual costs for the previous financial year and reasonable estimates where actual costs were not available.

The actual performance fees you are charged may be higher or lower because of performance by various underlying investment managers.

| Investment Option | Performance fees (% p.a.) |
|--|---------------------------|
| Lifecycle Investment Strategy¹ | |
| High Growth Pool | 0.29 |
| Balanced Pool | 0.23 |
| Cash Pool | 0.00 |
| Other investment options | |
| High Growth | 0.29 |
| Balanced | 0.23 |
| Conservative-Balanced | 0.22 |
| Conservative | 0.20 |
| Balanced Risk-Adjusted | 0.08 |
| Socially Conscious Balanced | 0.15 |
| High Growth Index | 0.00 |
| Balanced Index | 0.00 |
| Australian Shares Index | 0.00 |
| International Shares Hedged Index | 0.00 |
| International Shares Unhedged Index | 0.00 |

| Unlisted Assets | 0.92 |
| Bonds Index | 0.00 |
| Cash | 0.00 |

¹ The Lifecycle Investment Strategy invests in the High Growth Pool, Balanced Pool and Cash Pool. Your allocation between the 3 pools varies depending on your age, and the performance fees you are charged will vary accordingly. For more information about Lifecycle Investment Strategy, please see our Investment Guide.

How fees and costs apply to your Accumulation account

This table gives you additional information about how various fees and costs can apply to your Super Savings Accumulation account. Please see art.com.au/fee-definitions for definitions of these fees and costs.

| Type of fee or cost | How it applies to your Super Savings Accumulation account |
|--------------------------------------|---|
| Ongoing annual fees and costs | |
| Administration fees and costs | <p>We charge administration fees to cover the costs of administering the Fund. These fees are in 3 components:</p> <ol style="list-style-type: none"> 1. Dollar fee: These fees are generally deducted weekly from each account you hold. These fees are not pro-rated for partial weeks. 2. Capped percentage fee: These fees are generally deducted weekly and are only charged on the first \$500,000 of each of your account balances for each account you hold. These fees are pro-rated for partial weeks. 3. Costs met from reserves: When the administration costs exceed member administration fees collected these costs are met from our general reserve, not from your account balance or investment returns. We estimate and report these costs for the past financial year when we disclose them. <p>Important: Lower administration fees and costs may apply to some Super Savings - Business and Super Savings - Corporate Accumulation accounts. How and when those administration fees and costs are paid may also be different to the information shown above. For more information, Super Savings - Business members should refer to Section 6 of their PDS and their Business Plan Information Factsheet, and Super Savings - Corporate members should refer to Section 6 of their PDS and their Cost of Product Factsheet.</p> |
| Investment fees and costs | <p>We charge investment fees and costs to manage each investment option. The investment fees and costs include the internal costs of managing investments and may include investment project related costs. The investment fees component of investment fees and costs is estimated based on recent experience and our expectations for the current financial year. The investment costs component is generally calculated based on a combination of actual and estimated costs for the year ended 30 June 2025. We use information received from our investment managers to help us make these estimates. We include an allowance for investment fees and costs in the unit prices. You can find out more about this in our Investment Guide. The investment fees and costs amounts that we show here include any performance fees that apply to the respective investment option. Please see more information about the performance fees for investment options on page 39.</p> <p>Please note that the actual investment fees and costs may differ from our estimates. This may happen, for example, due to changes in the investment manager mix or investment manager fees. We monitor ongoing investment fees and costs for each investment option.</p> <p>We may receive new information and need to update our investment fees and costs.</p> <ul style="list-style-type: none"> Where the change is not materially adverse, we'll publish the updated information at art.com.au/pds or you can call us on 13 11 84 for a copy. If the change is material, we'll notify you. |
| Transaction costs | <p>Transaction costs are costs incurred when assets are bought or sold. They are generally calculated based on the actual costs incurred for the previous financial year. They may include investment project related costs.</p> <p>The type of transaction cost will depend on the type of asset. Transaction costs for an investment option include:</p> <ul style="list-style-type: none"> Brokerage costs: A fee charged by an agent or an agent's company to conduct transactions between buyers and sellers for services such as purchases, sales, or advice on a transaction. Buy-sell spreads: Costs we incur when we purchase or sell the underlying assets of the investment option. This includes the costs incurred from purchasing and selling assets as a result of additional contributions to, and withdrawals from, the investment option (including switches in and out of the option). Settlement and clearing costs: Costs charged by a stock exchange through which assets are traded. Stamp duty: A charge applied by a government in relation to the transfer of land or property. Operating costs: Other administrative costs incurred by investment vehicles and in connection with investments in assets. <p>Transaction costs are an additional cost to you. But you don't pay the costs out of your account. Instead, they're included in the net investment return for the investment option (except to the extent recovered under any separate buy-sell spread fee we may charge you). Important: We do not currently charge a separate buy-sell spread fee – see below.</p> |

| Type of fee or cost | How it applies to your Super Savings Accumulation account |
|---|--|
| Member activity related fees and costs | |
| Buy-sell spreads | We currently don't charge buy-sell spread fees when you make contributions to, or withdrawals from, an investment option (including switches in and out of an option) or in any other circumstances. But any buy-sell spread costs we incur are included in the transaction costs of the relevant investment option as explained above. |
| Switching fees | We don't charge switching fees. |
| Exit fees | We don't charge exit fees. |
| Activity fees | We don't charge activity fees. |
| Advice fees | <p>Advice fees</p> <p>If you have consented to pay for personal financial advice provided by your financial adviser about your Australian Retirement Trust account and our requirements are satisfied, this amount is paid from your account. Your financial adviser will explain their advice fee structure to you in their statement of advice.¹</p> <p>Intra-fund advice costs</p> <p>Intra-fund advice costs means the costs we incur to provide you access to financial product advice about our products that you hold. We include these costs in the administration fees and the costs we pay from the general reserve. You can access this advice service as part of your membership.² For more information about advice you can access, please see art.com.au/advice</p> |
| Insurance fees | We charge these to offset our costs of providing insurance cover. Where applicable, we include these in the insurance premiums. We describe premiums in our Super Savings Insurance Guide (Super Savings - Business members should refer to the Super Savings - Business Insurance Guide and their Plan Information Factsheet. Super Savings - Corporate members should refer to their Super Savings – Corporate Insurance Guide). |

¹ The Trustee has established a panel of accredited external financial advisers who are not employees of the Australian Retirement Trust group. The Trustee is not responsible for the advice provided by these advisers and does not receive or pay any referral fees. ² Representatives of ART Financial Advice Pty Ltd (ABN 50 087 154 818 AFSL 227867) give financial advice. ART Financial Advice Pty Ltd is responsible for the advice it gives and is a separate legal entity. Read the Financial Services Guide at art.com.au/fsg for more information.

Changes to our fees and costs

We can change the fees and costs that you may be charged without your consent. We'll inform you at least 30 days before we increase (or introduce new) fees that we charge directly. Prior notice is not required where an increase reflects an increase in costs.

Taxation

We pass on the benefit of tax deductions we claim for certain costs of operating the Fund, including insurance premiums, in 2 different ways:

1. Indirectly by retaining it in the Fund for the benefit of all members
2. Directly to your account as a tax rebate

Tax rebate

You may receive a tax rebate for administration fees and insurance premiums we deduct from your account, if you paid contribution tax on before-tax contributions paid into your Accumulation account during the financial year. Your tax rebate is capped at the amount of contributions tax you've paid during the financial year. It will be credited to your account. If you close your account during a financial year, you'll receive the rebate in your final balance. You're assessed for a tax rebate separately for each account you hold.

Please see pages 43 to 45 for more information on the tax that applies to your super.

A man with dark hair, wearing a denim shirt and shorts, is leaning over and helping a young girl with dark hair and bangs, wearing a blue floral dress and black sneakers, to ride a red skateboard on a paved path. The background is a blurred outdoor setting with trees and a clear sky.

How super is taxed

In this section, learn about tax on super.

We show you:

- Tax on money you put in to your super
- Tax on money you take out of your super

How super is taxed

Super is a tax-effective way to save for your retirement. But it's not tax free. Different tax rules apply in different circumstances. Australian Retirement Trust is not a tax agent, and we recommend you consider seeking your own financial and/or tax advice.

You may pay tax at 3 stages:

- When money goes into your super account as a contribution
- While it is in your super as a tax on investment earnings in the accumulation phase
- When you take it out of your super account

Tax is usually payable at these rates:

Money going in to super: 15%

- On **before-tax contributions** you or your employer make to your super, you pay 15% tax. Don't forget there's contribution caps. The 15% rate is for the amount up to your cap.¹ You may pay extra tax if you go over the cap or if you earn over \$250,000.²
- **After-tax contributions** are tax-free. No tax applies to these contributions unless you go over the cap.³

Money growing in your super: generally up to 15%

- You pay tax on investment earnings on your super. It's usually a lower rate than on most other forms of saving.

Money you take out of your super: 0-20%⁴

- If you make lump sum withdrawals from your super, your tax depends on your age. Once you're over 60, any money you take out of super – either as an income stream or a lump sum – is usually tax free.

¹ The concessional annual cap amount for 2025-26 is \$30,000. ² The \$250,000 threshold is the total of your income and your before-tax contributions. For more information, please see art.com.au/caps. ³ The non-concessional annual cap amount for 2025-26 is \$120,000. Your cap may be different depending on your circumstances. For more information, please see page 11. ⁴ Medicare levy may also apply.

Important: Please see our Product Disclosure Statement for Income Account and Lifetime Pension at art.com.au/pds for information on the tax you pay when you access your super in retirement.

Provide us with your tax file number

We are authorised to collect, use and disclose your tax file number (TFN) under the *Superannuation Industry (Supervision) Act 1993*. We may disclose your TFN to another superannuation provider, when your benefits are being transferred, unless you request in writing that your TFN not be disclosed to any other superannuation provider.

It's important you provide us with your TFN. You don't need to give us your TFN, but giving it to us has these advantages:

- ✓ We'll be able to accept all permitted types of contributions to your account(s).
- ✓ The tax on contributions your employer makes to your super account(s) won't increase.
- ✓ Other than the tax that may ordinarily apply, you won't pay any more tax when you start drawing down your super benefits.
- ✓ It will make it much easier to trace all the super accounts you have in your name so that you can access all your super benefits when you retire.

Tax when you withdraw your money

When you're ready to access your super, there's a tax-free and a taxable component for any withdrawals you make. We may deduct tax on withdrawals depending on your age, and the tax-free and taxable components of your super.

This table shows the tax-free and taxable components of your super.

| Tax-free | Taxable |
|---|--|
| <ul style="list-style-type: none">• Personal contributions where you haven't claimed a tax deduction• Spouse contributions• Super co-contributions• Money rolled over from another super fund (the tax-free component)• Money that becomes tax-free following approval of a total and permanent disability claim• Capital gains tax (CGT) exempt contributions• Downsizer contributions | <ul style="list-style-type: none">• Employer contributions• Salary sacrifice contributions• Personal contributions where you have claimed a tax deduction• Investment returns• Money rolled over from another super fund (the taxable component) |

This table shows how much tax you will pay on the tax-free and taxable components of your super when you withdraw a lump sum.

| Component | Under age 60 | Age 60 and over |
|-----------|---------------------------------------|-----------------|
| Tax-free | Nil. | Nil. |
| Taxable | Up to 20% tax, plus 2% Medicare levy. | Nil. |

Withdrawals you make out of your account will have the same split between taxable and tax-free as your account balance.

Tax treatment on other benefit payments

Tax on a total and permanent disability payment

If you receive a lump sum payment from your super because you have suffered a total and permanent disability, the tax-free component of your benefit may be increased.

Tax on a terminal medical condition payment

If you have an Accumulation account and are diagnosed with a terminal medical condition, you can access all your super. You can withdraw the entire balance tax-free for 24 months from the date you're certified as having a terminal medical condition.

Tax on a death benefit payment to a dependant

When we pay your death benefit directly to your dependant as a lump sum, it's tax-free.

A dependant for tax purposes is:

- Your current or former spouse, including de facto
- Your child under age 18 (biological, adopted, a stepchild or ex-nuptial child, your spouse's child, or your child within the meaning of the *Family Law Act 1975*)
- Anyone else financially dependent on you just before your death
- Someone in an interdependency relationship¹ with you just before your death

¹ Someone is an interdependency relationship with you if they have a close personal relationship with you, you live together, and one or each of you provides the other with financial and domestic support and personal care. Someone is also in an interdependency relationship with you if you have a close personal relationship but the other criteria are not satisfied because either or both of you suffer from a physical, intellectual, or psychiatric disability, or you are temporarily living apart.

Tax on a death benefit payment to a non-dependant

If we pay your death benefit to a non-dependant as a lump sum, the taxable component is taxed at up to 15% plus 2% Medicare levy.²

² In some circumstances, there may be an untaxed element that is taxed at up to 30% plus 2% Medicare levy.

Tax on a death benefit payment to a legal personal representative

We do not deduct any tax when we pay your death benefit to your legal personal representative. The legal personal representative may deduct tax from any amount they pay to a non-dependant beneficiary.

Tax on a death benefit payment to military and police

The lump sum death benefit for a police officer, protective service officer or member of the defence force who dies in the line of duty may be tax-free even if it is paid to a non-dependant.

Find out more

For more information on superannuation taxes, please call us on **13 11 84** or see art.com.au/superannuation-glossary/superannuation-taxes

A woman with long brown hair, wearing a blue and white striped shirt, is smiling warmly at the camera. She is holding a young child with dark hair, wearing a grey hoodie, who is looking slightly away from the camera with a neutral expression. The background is a blurred indoor setting with wooden beams and a warm light source.

Important information for you and your super

In this section, learn other important information about your super.

We show you:

- How you can find any lost or unclaimed super that may be yours
- How we'll contact and provide you with information

Important information for you and your super

You're under 15 and want to join us

If you're under 15, you can open an Accumulation account through:

- your employer
- submitting a paper application form that your parent or guardian must sign.

Inactive low balance account

To protect account holders with low account balances, we must transfer inactive low balance accounts to the ATO. An inactive low balance account is where the account balance is less than \$6,000 and there has been no activity on the account in 16 months, including:

- no rollover from another fund or a contribution to your account
- no changes to investment options
- no binding death benefit nomination has been made or changed
- no insurance cover or changes to insurance cover.

Your account may be excluded from being inactive if you have told us you do not want your account to be transferred to the ATO, or you have satisfied a relevant condition of release that allows you to access to your super. This might be if you have retired on or after age 60, reached age 65, or you have a terminal medical condition or permanent incapacity.

We'll contact you if we can before we transfer your account.

Lost super

We treat you as a lost member if we can't contact you or if you meet the definition of an inactive account holder. If we think you're a lost account holder, we treat the security of your account very seriously.

If you had money with us and we haven't been able to contact you, or your account is inactive, we may have to send your super to the ATO.

Unclaimed super

Twice a year, we must report and pay any unclaimed super to the ATO. Your super may be unclaimed if:

- you are over 65 and we haven't received a contribution or rollover for you in the last 2 years, and we've been unable to contact you in the last 5 years
- you have died and we haven't received a contribution or rollover for you in the last 2 years, and we cannot locate an eligible beneficiary to receive your death benefit
- the ATO has told us that you were a temporary resident and have since departed Australia, or your work visa has expired
- you are a non-member spouse entitled to be paid super split from your former spouse and we are unable to ensure you or your legal personal representative will receive it.

We may also transfer a current or former member's super to the ATO if we consider this in the best interests of the current or former member.

If you think you may have super that has been transferred to the ATO, you can contact the ATO on **13 10 20** or visit their website at **ato.gov.au** to reclaim it.

Find your super that has been transferred to the ATO

If you think you may have super that has been transferred to the ATO, you can contact the ATO on **13 10 20** or visit their website at **ato.gov.au** to reclaim it.

To search for your super that has been transferred to the ATO, you can go to **Member Online** to start finding your super and putting it all in the one place.¹

You can find out more about lost and unclaimed super at

art.com.au/superannuation/find-lost-super

¹ Before you combine super, think about whether it's right for you. You may lose access to benefits such as insurance or pension options, and you need to consider fee and tax implications. You may wish to talk to a financial adviser.

Automatic account consolidation

Sometimes you might have more than one Super Savings Accumulation account in your name. An example of when this might happen is when you change jobs, and your new employer doesn't give us the same details for you as we already have on file. We sometimes put these multiple Accumulation accounts into the one.

Family law split

If you separate from your spouse (including same-sex and de facto), family law legislation means you may be able to split the super either of you hold with a value of \$5,000 or more. If we need to split your account, and after we receive all the required information and forms, we'll generally open an Accumulation account for your former spouse if they don't already have one. In accordance with the relevant agreement or Court order, we'll transfer their entitlement into that account and make a corresponding reduction to the amount in your super.

Because the legislation around splitting your super is complex and may have financial and tax implications for you, it's a good idea to get financial and legal advice.

Temporary residents

If you move to Australia with a temporary resident visa that allows you to work, you'll probably have earned some super. If you had a temporary resident visa and you earned superannuation while working in Australia, you can claim your super as long as:

- you are not an Australian citizen, New Zealand citizen or permanent resident
- your visa ends (it might expire or be cancelled)
- you have left Australia permanently
- you apply to withdraw your super after you leave.

If we are required to transfer your benefits to the ATO before you make an application to us, you will need to apply to the ATO to receive your benefits. If you are a temporary resident, we aren't required to notify you or give an exit statement if we pay your unclaimed super to the ATO. This is in accordance with an ASIC exemption.

For more information, please see art.com.au/early-access

Overseas pension schemes

We may accept transfers from some other countries, excluding KiwiSaver and UK pensions. These transfers are usually reported as contributions and there may be tax impacts, so we recommend seeking professional advice or speaking to the ATO.

Some foreign retirement savings funds may not release money to Australian superannuation funds. Check with your foreign retirement savings fund for more information.

To find out when and how you can transfer money from your overseas pension visit

art.com.au/transferring-overseas-funds

Permanently moving to New Zealand

If you've left Australia to permanently live in New Zealand, you may be able to transfer the money you have in your Accumulation account to a retirement savings scheme in New Zealand.

To learn more about transferring your super to a KiwiSaver, visit art.com.au/kiwi-saver

Special offers

We may make special offers available from time to time. Special offers may only be available to you for a short time, and we can withdraw them at any time. You'll have been advised separately if there is a special offer available to you.

Rewards

Search thousands of offers and discounts on holidays, experiences, everyday items and more.

Visit art.com.au/rewards for details.

How we'll contact you

Where we can, we'll provide certain information to you electronically rather than sending it by post. If we have an email address for you, we'll normally either email you the information or tell you by email, SMS or our app that the information is available on our website or through [Member Online](#). If we don't have a valid email for you, we'll tell you by post, SMS or our app that the information is available.

The information we make available this way includes:

- significant event notices
- financial services guides
- product disclosure statements
- your annual statements and exit statement
- our Annual Report
- transaction confirmations.

If you'd rather receive paper documents, it's easy to change. Simply go to [Member Online](#) or call us on **13 11 84** to opt out of digital. If you opt out, it applies to how we send you all documents in the future.

Your privacy – personal information collection

We collect your personal information to provide superannuation benefits, administer your benefits, and provide related services and information to you. This includes processing your application, managing your participation in Australian Retirement Trust, informing you about your benefits and our services, and ensuring you receive your entitlements.

We generally collect your personal information directly from you, your authorised representatives, your employer or other third parties such as the ATO. If information we request is not provided, we may be unable to properly administer your benefits or notify you about your entitlements.

We may disclose your personal information to entities within the Australian Retirement Trust Group, our service providers and advisers, medical and health professionals, regulators and government bodies, or other third parties if necessary or if you have provided your consent to the disclosure. This includes but is not limited to the Fund's administration service providers, insurers, auditors, and legal advisers. We may also be required by law to disclose your information to government bodies like the ATO. We may disclose information with third-party service providers in overseas locations, as detailed in our Privacy Policy.

For more information, please read our Privacy Policy. It explains the types of information we collect and how we collect, hold, use, and disclose your personal information. It also describes how you can access and correct your personal information and outlines our privacy complaints process.

We are committed to respecting your privacy. Our Privacy Policy may be updated from time to time and is available at art.com.au/privacy or by contacting us.

Concerns and complaints

If you have a complaint related to any Australian Retirement Trust entity, including about any financial product or services we've provided, we want to know about it as soon as possible.

Contact us

Here's how you can lodge a complaint with us. Please mark letters or emails 'Notice of enquiry' or 'Complaint'.

Phone: 13 11 84

Mail: Australian Retirement Trust
The Complaints Manager
